Mom + I at
Cape Blanco Lighthouse

Coastal wilderness

Pirate's Cove

OIMB boat house

Squid dissection

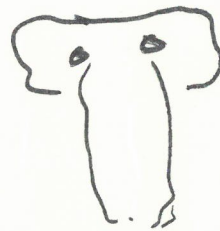

Sea lion

Porpoise

Elephant Rock

My laboratory research set-up

- I studied the shore crab, Hemigrapsus oregonensis physiological and behavioral characteristics in estuarine (low salinity) habitat.

Dad and I

Dad, Rod, and I in the South Slough
Estuary. I conducted my field
research here.

Hacky sac

Alex

• Class on the mudflats
• We dug up 40 Empire
clams, Clinocardium notali,
and cooked them up that
eve (next page).

Hoose hooplah!

Surveying marine abundance
with a seine net.

Pirate's Cove
that is my Invertebrate Zoology
teacher looking like a smores guardi
